StarParts

The following pages are designed to help you understand how to transfer parts numbers from StarParts® .

One of the first steps would be to log into the StarParts® web site at:

starparts.chrysler.com

This will connect you to the StarParts® Network. Click the “start here” button.

Enter your logon and password.

Use the catalog as instructed by Chrysler.

Once specific part numbers have been determined, you can transfer/download those numbers to the Intec System.

Step 1: On the left side of the screen, under Tools, Click Exchange.

Step 2: A pop-up window will appear. Click Transfer to DSP button.

Note: You will not receive any response or acknowledgment on the screen.
